PROFESSIONAL SUMMARY

Full-stack developer experienced in designing and building secure, scalable web applications using modern JavaScript and Typescript technologies. Skilled in frontend development, backend architecture, authentication systems, REST APIs, database design, and multi-tenant applications.

Experienced in developing organizational platforms featuring role-based access control, membership management, and financial tracking systems.Proficient in React, Next.js, Express.js, SQL, MongoDB and modern web development practices.

Strong analytical background from Medical Biochemistry contributes structured problem-solving, attention to detail and an evidence-based approach to software engineering. Interested in cybersecurity, scalable architectures, and technology solutions that create meaningful impact.

TECHNICAL SKILLS

- **Frontend:** Javascript (ES6+), HTML5, CSS3, Typescript, React, Next.js, Tailwind CSS, Responsive UI design.
- **Backend:** Node.js, Express.js and REST API Development
- **Databases:** SQL and NoSQL

Other Technologies

- Authentication & Authorization
- Role-Based Access Control (RBAC)
- Multi-Tenant Architecture
- Git & Github
- System Design
- Deployment & Hosting

PROJECTS & EXPERIENCE

Founder & Full-Stack Developer - ChurchApp
2025 - Present

Live Demo: https://cms-ian-ochami-s-projects.vercel.app
GitHub: Code available upon request

Tech Stack:
React, Node.js, Express, SQL, Authentication, RBAC and Multi-tenancy.

- Designed and developed a scalable multi-tenant web application supporting church administration and operations
- Implemented secure authentication workflows and role-based access control systems
- Designed application architecture to support multiple organizations within a single platform
- Managed deployment, updates, and ongoing product improvements

Full-Stack Developer - Second Advent Ministries Platform
2024-Present

Live Demo: https://second-advent-ministries.vercel.app
GitHub: Code available upon request

Tech Stack:
Next.js, Typescript, Tailwind CSS, Express.js, MongoDB, MDX.

- Developing a digital evangelism and content management platform for publishing Bible studies, articles, and Christian educational materials.
- Building the platform with Next.js and Typescript using a modern component-based architecture and responsive Tailwind CSS interfaces.
- Developing backend services with Express.js and integrating MongoDB for structured content and application data.

EDUCATION

Bachelor of Science (BSc.) - Medical Biochemistry

Jomo Kenyatta University of Agriculture and Technology(JKUAT)
Second Class Upper Division - 2023
