PROFESSIONAL SUMMARY

Full-stack developer experienced in designing and building secure, scalable web applications using modern JavaScript technologies. Skilled in frontend development, backend architecture, authentication systems, REST APIs, database design, and multi-tenant applications.

Experienced in developing organizational platforms featuring role-based access control, membership management, and financial tracking systems. Strong analytical background from Medical Biochemistry contributes structured problem-solving and attention to detail in software engineering.

Interested in cybersecurity, scalable architectures, and technology solutions that create measurable impact within organizations and communities.

TECHNICAL SKILLS

- **Frontend:** Javascript (ES6+), React and Responsive UI Design
- **Backend:** Node.js, Express.js and REST API Development
- **Databases:** SQL and NoSQL
-

Other Technologies

- Authentication & Authorization
- Role-Based Access Control (RBAC)
- Multi-Tenant Architecture
- Git & Github
- System Design
- Deployment & Hosting

PROJECTS & EXPERIENCE

Founder & Full-Stack Developer - ChurchApp
2025 - Present

Live Demo: https://cms-ian-ochami-s-projects.vercel.app
GitHub: Code available upon request

Tech Stack:
React, Node.js, Express, SQL, Authentication, RBAC and Multi-tenancy.

- Designed and developed a scalable multi-tenant web application supporting church administration and operations
- Implemented secure authentication workflows and role-based access control systems
- Designed application architecture to support multiple organizations within a single platform
- Managed deployment, updates, and ongoing product improvements

Frontend Developer - Second Advent Ministries Platform
2024-2025

Live Demo: https://advent-project.vercel.app
GitHub: Code available upon request

Tech Stack:
HTML5 , CSS3, Javascript (Vanilla) and Responsive Design.

- Designed and developed a responsive web platform supporting digital evangelism initiatives
- Built interactive frontend features using vanilla Javascript for content delivery and user engagement
- Developed interfaces enabling access to Bible stories, articles, and Christian educational resources
- Improved user experience through intuitive navigation and content organization

EDUCATION

Bachelor of Science (BSc.) - Medical Biochemistry

Jomo Kenyatta University of Agriculture and Technology(JKUAT)
Second Class Upper Division - 2023
