## PROFESSIONAL SUMMARY

Full-Stack Developer experienced in designing, developing, and maintaining modern web applications using JavaScript, TypeScript, React, Next.js, Node.js, and Express.js. Hands-on experience building end-to-end application solutions, including responsive user interfaces, REST APIs, database integrations, authentication systems, role-based access control, and multitenant architectures.

Founder and developer of ChurchApp, a multitenant church management platform, and contributor to the development of Second Advent Ministries, a digital publishing and content management platform.

Brings strong analytical and problem-solving skills supported by an academic background in Medical Biochemistry. Particularly interested in scalable application architecture, secure software development, AI-assisted development, and building technology solutions that address practical business needs.

## TECHNICAL SKILLS

- **Frontend:** Javascript (ES6+), HTML5, CSS3, Typescript, React, Next.js, Tailwind CSS, Responsive UI design.
- **Backend:** Node.js, Express.js and REST API Development
- **Databases:** SQL and NoSQL

**Other Technologies**

- Authentication & Authorization
- Role-Based Access Control (RBAC)
- Multi-Tenant Architecture
- Git & Github
- System Design
- Deployment & Hosting

## PROJECTS & EXPERIENCE

**Founder & Full-Stack Developer - ChurchApp**
2025 - Present

Live Demo: https://cms-ian-ochami-s-projects.vercel.app
**GitHub**:
Frontend: https://github.com/ochami-codes/CMS
Backend: https://github.com/ochami-codes/CBE

**Technology Stack**:
React, JavaScript, Node.js, Express.js, PostgreSQL, Supabase, REST APIs.

- Designed and developed a scalable multi-tenant web application supporting church administration and operations
- Implemented secure authentication workflows and role-based access control systems
- Designed application architecture to support multiple organizations within a single platform
- Managed deployment, updates, and ongoing product improvements

**Full-Stack Developer - Second Advent**

**Ministries Platform** 2024-Present

Live Demo: https://second-advent-ministries.vercel.app
**GitHub**:
Frontend**:** https://github.com/ochami-codes/SAM-Frontend
Backend:
https://github.com/ochami-codes/SAM-Backend

Tech Stack:
Next.js, Typescript, Tailwind CSS, Express.js, MongoDB, MDX.

- Developing a digital evangelism and content management platform for publishing Bible studies, articles, and Christian educational materials.
- Building the platform with Next.js and Typescript using a modern component-based architecture and responsive Tailwind CSS interfaces.
- Developing backend services with Express.js and integrating MongoDB for structured content and application data.

## EDUCATION

**Bachelor of Science (BSc.) - Medical Biochemistry**

**Jomo Kenyatta University of Agriculture and Technology(JKUAT)**
Second Class Upper Division - 2023
